Vulnerable Children and War Victims Results

Package: Victims of Torture Fund

Project Number: 936-3102
Agreement Type: N/A
Agreement Number: N/A
Duration: N/A
Geographic Scope: Worldwide

Purpose:

The Victims of Torture Fund (VTF) provides financial and technical assistance to programs worldwide that assist in the rehabilitation of individuals who suffer from the physical and psychological effects of torture.

Services Provided:

The VTF primarily supports programs that help heal the psychological and physical trauma caused by torture. Additionally, the Fund recognizes that communities, along with survivors, need to heal and recover. To this end, the Fund supports programs that affirm the dignity of the survivor by restoring his or her position as a functioning and contributing member of the family and the community.

The Fund works through nongovernmental organizations (NGOs) overseas that (1) provide direct services to survivors, their families, and communities; (2) strengthen the capacity of country-based institutions in their delivery of services to survivors; and (3) increase the level of knowledge and understanding about the needs of torture victims.

Currently, the Fund is supporting an estimated total of 45 treatment programs that attend to the medical, psychological, and social needs of torture survivors and their families. These programs include advocacy, training, technical assistance, and research.

The Fund is coordinated and supported by the Office of Democracy and Governance, although most activities are implemented through grants and agreements that are managed by USAID Missions.

As part of its oversight and managerial responsibilities for the Fund, DCHA maintains a technical assistance contract with Manila Consulting. This contract provides technical assistance and support for field missions that are interested in developing programs under the Fund.
